AI DESIGNED THIS AD.

This ad is a demonstration of how Design, AI and Technology can come together to make a thing of beauty.

But it's not just skin-deep. This stunning cityscape design featuring a train system offers a glimpse into the not-too-distant future.

This is how SUTD leverages Design, AI and Technology to redefine higher education and research, fostering innovator leaders and empowering transformative innovations, all the while incorporating sustainability as we address real-world challenges.

“

Justin Chee Jia Wei

■ Head of Product Strategy,
Smart Mobility (Roads & Services),
ST Engineering
Graduated from the Master of
Innovation by Design programme

I have unleashed my creativity and elevated my skills with the design tools learned from the Master of Innovation by Design programme. Through collaboration with my peers from diverse backgrounds, we have transformed innovative ideas into market-tested blueprints.

Chia Yew Ken

■ SUTD Alibaba EDB Industrial
Postgraduate Programme
(EDB-IPP) PhD Student

Being a student in the EDB-IPP programme at SUTD and collaborating with Alibaba DAMO Academy has offered invaluable mentorship, allowing me to delve into advanced academic research and gain practical insights into generative AI applications within the industry.

Durga Baskar

■ Master of Science in
Technology and Design
Programme (Cybersecurity)
Student

The MTD programme has been a great experience. The professors are incredibly approachable and supportive, fostering a collaborative learning environment. I truly enjoy being part of this programme and feel well-prepared for my future career.

”

TRAILBLAZING A BETTER WORLD BY DESIGN.

Experience future-forward learning through SUTD's Masters and PhD programmes including our signature Master of Science in Technology and Design (MTD) programmes. By intertwining Design, AI and Technology, SUTD positions you to be at the forefront of tomorrow's industries, today.

Interdisciplinary Legal Education In a New Era of Diversification

CITY CAMPUS

INTERNATIONAL
FACULTY MEMBERS

LEADING RESEARCH
RESOURCES

SEMINAR-STYLE PEDAGOGY
AND SMALL CLASS SIZE

SMU Yong Pung How School of Law is distinguished by its unique pedagogy in equipping students with fundamental knowledge and skills specific to the legal practice. The SMU Juris Doctor and Master of Laws programmes connect law with business, finance, and new technologies to produce graduates adept at collaborating across different industries. SMU's academically and professionally well-established faculty is unrivalled in their passion and commitment towards research excellence and engagement with the legal profession. On top of that, the SMU city campus located in the heart of downtown Singapore offers students not only the ease of transiting between work, home, and school, but also a bustling backdrop for social activities.

SMU Juris Doctor Programme

SMU Juris Doctor (J.D.) is a postgraduate degree for aspiring practitioners of law. This robust programme will comprehensively expose students to interdisciplinary and applied practices in the legal landscape. Through the core modules and rich electives of the JD programme, students can not only achieve knowledge of law, but also improve critical thinking, professional judgements, and presentation skills.

5 FACTS ABOUT JURIS DOCTOR

1 Professional Law Degree

A full-time professional law degree for graduates of any discipline.

2 Exclusive basis

All core law modules are taught in classes exclusively for JD students only.

3 Diverse Student Background

JD students hail from different disciplines and work experiences, thus promoting a rich exchange of diverse perspectives.

4 Qualifying Law Degree

With a GPA of ≥ 3.0 points, graduates can take the Singapore Bar exam.

5 Choice to value-add to your JD degree

In the course of the JD programme, students can choose to complete another SMU MBA degree, or the Dual JD Programme with Yonsei University, or the JD-LLM Programme with Bocconi University.

Master of Laws Programme

The SMU LLM programme is carefully designed to expand legal knowledge in classic and novel areas of the law, while simultaneously equipping you with the skillsets essential to render on-point advice on cross-border transactions or deliver high-quality adjudication and judicial administration results. Tracks available in the programme are:

Judicial Studies Track

- In partnership with the Singapore Judicial College
- Designed specifically for serving judges and judicial aspirants

Cross-Border Business and Finance Law in Asia Track

- Gain a double-edged legal and business advantage
- Acquire knowledge in cross-border data transaction, financial regulation, international business, investment, wealth management etc.

Law and Technology Track

- Unique interdisciplinary studies on the latest legal and regulatory issues
- Cutting-edge technologies in Data Management, AI, Blockchain, and Fintech etc

5 FACTS ABOUT MASTER OF LAWS

1

Advanced Law Degree

1-year full-time or 2-year part-time postgraduate programme.

2

Non-Law Professionals Welcome

Designed for cross-disciplinary specialisation, with about 20% of each cohort hailing from diverse non-legal fields.

3

Interactive Pedagogy

Experience a stimulating, multi-disciplinary exploration while cultivating analytical, collaborative, and communication skills.

4

Cutting-edge Curriculum

Incorporating the latest research and best business practices, the curriculum includes study tours to leading companies, organisations, and law firms.

5

Networking Opportunities

Connect with legal, business, and banking practitioners to gain insights into possible career pathways.

Entrepreneurship Academy

Technopreneurship and Innovation Programme

Master of Science | FlexiMasters

An entrepreneurship programme deeply rooted in the technological ecosystem

The MSc TIP stood out among other MBA programmes. Instead of a top-down approach to prepare graduates to manage well-established institutions, the MSc TIP is ground-up and value creation driven. As starting my own company and own brand was always at the back of my mind, the MSc TIP appealed to me.

Jason Lee, MSc TIP Class of 2010
Founder, Scent By SIX
Prestige's 40 under 40 Laureate in 2020, Singapore Prestige Brand award 2020/2021

Taking on FM TIP provided me with the skills to effectively communicate with mentors and peers from different industry backgrounds and I was able to thus gain valuable insight into founding companies and the financing required, which will be helpful for business expansion in the future.

Ng Shan Shan Kiffany, FM TIP, MSc TIP Class of 2023
Director & Marketing Director, Hong Kong Hung Kam Limited, Hung Lam Development Co.

MSc TIP is a great starting point to explore the broader Technology, Innovation, and Entrepreneurship ecosystem. It offers valuable access to a strong alumni network, many of whom have gone on to build respected names in the industry. Over the years, I've been pleasantly surprised by the number of prominent business leaders, Venture Capitalists, Corporate Venture Capitalists, and innovation professionals who are graduates of the MSc TIP.

Farhan Firdaus, MSc TIP Class of 2020
Partner & CEO (Learning & Development), Meet Ventures

NTU Innovation and Entrepreneurship

OUR PROGRAMME

MASTER OF SCIENCE IN TECHNOPRENEURSHIP AND INNOVATION

Focusing on educating and nurturing leaders for the entrepreneurship ecosystem, our Master of Science in Technopreneurship and Innovation Programme (MSc TIP) empowers participants with competency to leverage on technology to create social and economic value for society.

With emphasis on experiential learning, MSc TIP integrates emerging technologies with innovative business models and practices into its curriculum. The course covers strategic and operational issues of entrepreneurial ventures at different growth stages.

Throughout the programme, participants will have opportunities to engage with many stakeholders in the entrepreneurship ecosystem. Over 2,000 alumni in more than 100 major cities and 30 countries around the world have benefitted greatly from this programme and many of them turned their entrepreneurial ideas into successful ventures.

Learn to deal with uncertainties and adapt to changes

Manage risk and operate business

Seize opportunities from new or disruptive technologies and uncertainties

Test your business ideas

Learn what investors look for in a start-up

Increase your business survival and success

Cultivate value, integrity and leadership

Syllabus designed for all aspiring or budding entrepreneurs. Students will be challenged academically through advanced assessments

FLEXIMASTERS IN TECHNOPRENEURSHIP AND INNOVATION

The FlexiMasters in Technopreneurship and Innovation Programme (FM TIP) is designed with support from the government for working professionals who are looking to learn more about entrepreneurship and the essential skillsets, and desire to turn novel ideas into successful ventures.

Academic Units earned are stackable and transferable to MSc TIP**

Weekend and weekday night classes

Supported by SkillsFuture grant in Singapore's drive to equip our citizens with skills and knowledge in their chosen domains. FlexiMasters students will enjoy study grants#

Course caters to diverse students through hybrid mode for synchronous and easy learning

Singaporeans and Singapore Permanent Residents only
**FM TIP AUs are transferrable subjected to admission to MSc TIP

DEVELOPING LEADERS THROUGH QUALITY EDUCATION

Hear from our Students & Alumni!

Joie Lim Jing Yi, Executive MBA

The University of Newcastle,
Australia, Class of 2025
Head - Partner Business Development
Insurance Sector

The programme has broadened my perspective, strengthened my ability to navigate complex challenges, and empowered me to craft innovative strategies that drive organisational success. The networking opportunities with fellow professionals and industry experts have been particularly enriching, allowing me to share insights, learn from others' experiences, and build meaningful connections.

Valerie Tham, Master of Analytics

Massey University,
2024 Intake
Senior Sensory Scientist
Kerry Ingredients (S) Pte Ltd

I've grown both personally and professionally, developing the analytical skills needed to create real impact through data-driven recommendations. By applying data science, visual storytelling, multivariate statistics, and design thinking, I now aim to position sensory consumer science as a cross-functional and essential component of product and brand strategy.

Carmen Lim, Master of Science in Cyber Security

Coventry University, Class of 2023
Presales Technical Consultant,
Cyber Security Governance, Telco Company

Coventry University offered modules that suited to my interest and fit the path I wanted to pursue. During my studies, lecturers would ask me how I was doing in my modules and my work whenever I bumped into them. After graduating, I am still in contact with some of my lecturers, such as Mr. Gregory, who was very supportive of my classmates and I till this day. I am very grateful for their efforts, which motivated me to continue pursuing what I love and have passion for. Despite being one of the 'rare' young female engineers, I feel I am right where I belong.

Coaching Psychology
programme

Success, in our students' words

"The lessons have been useful and eye-opening, and have not only imparted knowledge, but also changed mindsets. That speaks for the course itself - that it isn't just book learning, but a truly immersive learning experience that has instilled in me the hunger and fervour to know more about positive psychology."

- Marcus Goh, graduate of Graduate Diploma in Applied Positive Psychology

"I learned so much from the teachers, guest speakers and other students, through very practical training and imparting of wide knowledge and wisdom. This professional course was a springboard to me opening a private practice in Singapore, then France and Australia. The philosophies I was exposed also led me to write and publish a book to support the wellbeing of others. I've recommended this course to people on many occasions and will continue to do so."

- Trudi Bannister, graduate of Professional Diploma in Psychotherapy

#1 Business School in Europe

ESSEC Business School

ESSEC Business School, Asia-Pacific
5 Nepal Park, Singapore 139408
Tel: (65) 6884 9780, Email: essecasia@essec.edu
Website: www.essec.edu/asia
PEI Reg. No.: 200511927D
Reg. Period: 30 June 2023 to 29 June 2029

Background

A leading pioneer in education since 1907, ESSEC is ranked #8 business school in Europe by the Financial Times and holds the prestigious “triple crown” accreditation from AMBA, EQUIS and AACSB. We offer a wide range of top-ranked programs that provide strong global exposure, professional networks and career outcomes. Students can choose to study in 3 continents via our global campuses in Singapore, France and Morocco. In helping our graduates advance their professional aspirations, we have produced business leaders who helm some of the world’s most influential organizations such as Accenture, PwC, UBS, Chanel, L’Oréal, and Van Cleef & Arpels.

Programme Highlights

Ranked #1 in Singapore and Asia and among the top 7 worldwide in the QS Business Masters Rankings 2025, our Master’s programs in Finance, Management, Business Analytics, and Data Science offer a powerful combination for career success and global recognition. They also lead in Singapore and Asia for value, employability, and alumni outcomes.

Tailored for senior executives, the ESSEC & Mannheim Executive MBA Asia-Pacific is designed to address the demands on senior management operating in Asia via its innovative curriculum, inclusive learning approach, and a pan-Asian core with a global reach. Ranked #21 globally by the Financial Times, the modular program is delivered in person over 14 months, with 9 segments in Singapore and 3 international residencies in Paris, Mannheim, and Washington DC. The program offers a unique platform to build an international network with classmates from across Asia and Europe.

Other Available Programmes

Master in Finance
Ranked #1 in Asia and #4 worldwide by the Financial Times, the MIF is a 15-month intensive program that lets you gain access to major financial centers in both Europe and Asia. Offering a comprehensive view of finance, it equips high potential students with in-depth technical knowledge to pursue careers in asset and portfolio management, corporate finance, financial markets, fintech and risk management.

Master in Management
Ranked #3 in Asia and #10 globally by the Financial Times, the ESSEC MiM is one of the longest and most prestigious MiM programs in the world. Offered across both France and Singapore campuses, it provides exceptional global exposure and the flexibility to choose between a 1-year intensive or 2-year flexible track. Students can tailor their curriculum through multiple specializations, gain hands-on experience via a full-year apprenticeship, and work on real-world projects to prepare for global leadership roles.

Other Available Programmes

Master in Strategy & Management of International Business
Ranked #1 in Asia and #3 worldwide by QS, this one-year program lets you build a versatile career across diverse sectors such as business development, consulting, finance, marketing, project management and supply chain management. Students get to work on real business cases with multi-national corporations.

Master of Science in Marketing Management and Digital
Ranked #2 worldwide in QS Masters in Marketing 2025 and offered exclusively at ESSEC’s Singapore campus, this program has a dual focus on digital marketing and luxury brand management. From understanding consumer behavior in Asia to innovating the luxury industry, this hands-on program features partnerships with top companies that commission student-led projects to solve real-world marketing challenges.

Master in Data Sciences & Business Analytics
Ranked #3 worldwide by QS, the program – combining data sciences, business analytics & digital strategy – is offered by two of the most prestigious business and engineering schools in Europe – ESSEC and CentraleSupélec.

MSc in Hospitality Management (IMHI)
Widely acknowledged as Europe’s top hospitality management program, the IMHI offers an innovative, industry-engaged curriculum tailored to global hospitality trends. Emphasizing international and strategic insights, it prepares students for a resilient industry with a distinctive blend of core and elective courses, shaping impactful and responsible leaders to tackle current and future challenges.

Duke-NUS Medical School

8 College Rd, Singapore 169857
Email: admissions@duke-nus.edu.sg
Website: https://duke-nus.edu.sg

Background

Duke-NUS is Singapore's flagship graduate entry medical school, established in 2005 with a strategic, government-led partnership between two world-class institutions: Duke University School of Medicine and the National University of Singapore (NUS). Through an innovative curriculum, students at Duke-NUS are nurtured to become multi-faceted 'Clinicians Plus' poised to steer the healthcare and biomedical ecosystem in Singapore and beyond. A leader in ground-breaking research and translational innovation, Duke-NUS has gained international renown through its five signature research programmes and 10 centres. The enduring impact of its discoveries is amplified by its successful Academic Medicine partnership with Singapore Health Services (SingHealth), Singapore's largest healthcare group. This strategic alliance has spawned 15 Academic Clinical Programmes, which harness multi-disciplinary research and education to transform medicine and improve lives.

MD Programme Highlights

The Duke-NUS Doctor of Medicine (MD) programme embraces a pioneering "Clinicians First, Clinicians Plus" educational philosophy, guiding graduates to first become competent and patient-centered clinicians before advancing their other capabilities to become clinician-scientists, innovators, educators and leaders.

Quick Facts Box	
Name of Programme:	Doctor of Medicine (MD)
Total Cost:	<ul style="list-style-type: none">• Singapore Citizens: SGD 50,050 (GST subsidy provided)• Singapore Permanent Residents: SGD 66,150 (GST subsidy provided)• International Students: SGD 93,400 (inclusive of GST)
Duration:	4 Years

Application Information	
Application Deadline:	31 January
Programme Date:	July
Admission Requirements:	<ul style="list-style-type: none">• A bachelor's degree in any discipline• Graduate Medical School Admissions Test (GAMSAT) or Medical College Admission Test (MCAT) results• 3 – 5 references, typically from professors, mentors and/or employers• Volunteering, entrepreneurial, leadership and research experiences are looked upon favourably

Students Profile	
Intake Size:	78
Age (Mean):	21 - 40 years old

PhD Programme

The school's PhD programmes embed students in its five Signature Research Programmes, learning from scientists who are tackling the most pressing healthcare challenges in Singapore and Southeast Asia through basic and translational research.

Quick Facts Box	
Name of Programme:	<ul style="list-style-type: none">• PhD in Integrated Biology and Medicine (IBM)• PhD in Quantitative Biology and Medicine (QBM)
Total Cost:	A scholarship covering 100% of tuition and miscellaneous fees payable for the 4-year duration; and a monthly stipend (IBM & QBM)
Duration:	4-5 Years

Application Information	
Application Deadline:	15 January
Programme Date:	August
Admission Requirements:	<ul style="list-style-type: none">3 – 5 references, typically from professors, mentors and/or employers(I) PhD in Integrated Biology and Medicine• All applicants must have completed, or be in the final year of, a bachelor or honours degree(II) PhD in Quantitative Biology and Medicine• Biostatistics and Health Data Science: a master's degree or a bachelor's degree in a quantitative discipline (Statistics/Biostatistics/Math/Computer Science/Epidemiology).• Computational Biology: a bachelor's degree in biological, computational, or quantitative discipline.

With effect from 2026 Intake, standardized test scores such as the GRE are optional for PhD (IBM) and (QBM) applications. You may still choose to submit your GRE scores, and it is encouraged to do so if you believe it will enhance your application. Evidence of strong quantitative, verbal, and analytical skills through GRE scores, as well as indicators of research skills and experience will significantly strengthen your application.

MITM Programme

The Duke-NUS Master of International Translational Medicine (MITM) is a flexible, stackable, executive-style programme designed for working professionals. Delivered part-time, it offers a unique opportunity to learn directly from global leaders in translational medicine through our partnership with the Eureka Institute for Translational Medicine.

• A bachelor's degree with honours or its equivalent in Engineering, Science, or related disciplines from an institution of recognised standing
• TOEFL score of 85 or IELTS score of 6.0 (if your degree was not delivered in English)
• Relevant work experience is advantageous, and candidates opting to study part-time should preferably be employed in related industries
• GRE and GMAT (optional)

NTU Entrepreneurship Academy

Research Techno Plaza, 2nd Storey, BorderX Block
50 Nanyang Drive, Singapore 637553
Tel: (65) 6790 6675, Email: tipen@ntu.edu.sg
Website: www.ntu.edu.sg/ntupreneur

Background

Focusing on educating and nurturing leaders for the entrepreneurship ecosystem, our Master of Science in Technopreneurship and Innovation Programme (MSc TIP) empowers participants with competency to leverage on technology to create social and economic value for society. With emphasis on experiential learning, MSc TIP integrates emerging technologies with innovative business models and practices into its curriculum. The course covers strategic and operational issues of entrepreneurial ventures at different growth stages.

Throughout the programme, participants will have opportunities to engage with many stakeholders in the entrepreneurship ecosystem. Over 2,000 alumni in more than 100 major cities and 30 countries around the world have benefitted greatly from this programme and many of them turned their entrepreneurial ideas into successful ventures.

Highlights

- Offered in two language tracks: English and Chinese
- Modelled after the venture creation cycle and with focus on experiential hands-on learning, the programme admits students with diverse educational disciplines, industry backgrounds, and nationalities.
 - Opportunities to engage with academics, entrepreneurs, and industry practitioners including IP lawyers and venture capitalists etc.
 - Know-how to commercialise a business idea or technology from the research outputs of engineers and investors.
 - Networking sessions within the entrepreneurship ecosystem for first-hand insights to succeed in the business world.
 - Choice of Flexible learning via FlexiMasters

Background

Our English Graduate Programmes are designed for learners at different stages of their career. Regardless of your experience, we will expand your horizons, challenge conventional wisdom, and think critically about the pressing issues of our time. We will provide you with the knowledge and resources to make a meaningful impact, improve decision making and contribute to the betterment of societies, wherever you are.

By incorporating real-life case studies and experiences into the curriculum, our programmes equip students with the most current and practical skills and knowledge to address national issues and stay ahead of the trends.

Programme Highlights

Gain in-depth knowledge on topics across related areas in digital governance, artificial intelligence, decision making, governance, policy design and implementation, amongst others, from one of the best institutions in the world.

Benefit from a holistic learning experience with a rigorous and focused curriculum delivered by a highly curated multidisciplinary faculty. Learn from illustrious faculty members with extensive policymaking and implementation experience, and respected practitioners who are leaders in their field.

Join an extensive global network of more than 20,000 NCPA alumni who hold decision-making positions at all levels of government in their countries, including roles such as ministerial-level leaders, mayors and heads of organisations.

Website: [ntu.sg/nbs-mba](https://www.ntu.edu.sg/nbs-mba)

Background

Young and research-intensive, Nanyang Technological University, Singapore (NTU Singapore), is consistently ranked among the world's leading universities. Its business school, Nanyang Business School (NBS), is globally recognised for its excellence in business education, with a strong heritage in technology and innovation. NBS was the first business school in Singapore—and the third in Asia—to earn both EQUIS and AACSB accreditations. Ranked #1 in Singapore in the Financial Times Global MBA 2025 rankings, the Nanyang MBA is an intensive yet flexible 12- to 18-month programme designed to transform professionals into future-ready leaders. The programme cultivates interdisciplinary thinking and empowers participants to rethink business for a sustainable future. Taught by highly sought-after faculty with deep industry experience, the MBA offers a holistic and immersive learning experience. Graduates benefit from close collaboration with a diverse, high-calibre cohort and are well-positioned to thrive in Asia's dynamic economy and beyond.

- NTU ranked 12th globally by QS University Ranking
- NTU ranked 1st in the World by Times Higher Education Young University Ranking

Programme Highlights

- Highly ranked and globally recognised
- Interdisciplinary & cutting-edge; showcasing NTU's tech & innovation
- Rich ecosystem for holistic learning & sustainability
- Double Degree options: Waseda Double MBA, St Gallen Double Masters & ESSEC Double Masters
- Specialisation: General Management, Strategy & Innovation, Banking & Finance, Business Analytics, Marketing Management, Sustainability & Innovation
- Leading People Globally module, "live" consultancy project (Strategy Projects At Nanyang) and Business Study Mission
- Merit-based scholarships and various grant/subsidy schemes are available for qualified candidates
- Programme duration:
 - Full-time: Nanyang MBA – 12 or 18 months. Waseda Double MBA – 14 months. Double Degrees – 24 months.
 - Part-time: Nanyang Professional MBA – 18 months. The unique part-time format enables working professionals to obtain a world-class MBA without compromising work and family commitments. Classes are held on alternate weekends (Saturdays and Sundays).

Singapore Management University
Yong Pung How School of Law

55 Armenian Street, Singapore 179943

Background

The progressive development of Asian legal systems, aided by the rise of the region's economies, has fuelled demand for expert legal and judicial services. The SMU LLM and JD programmes are carefully designed to expand your legal knowledge in classic and novel areas of the law, while simultaneously equipping you with the skill sets essential to render on-point advice on cross-border transactions, deliver high-quality adjudication and judicial administration results, or regulate the development of new technologies.

LLM Programme Highlights

- Non-law graduates with outcoming related experience are welcome
- Three multi-disciplinary tracks can be chosen with cutting-edge curriculum
- Seminar-style small classes with interactive environment

Quick Facts Box	
Name of the Programme:	SMU Master of Laws
Available Tracks:	Judicial Studies, Cross-Border Business and Finance Law in Asia, Law and Technology
Total Cost:	SGD38,150 (Inclusive of GST)
Duration:	1-Year Full-Time or 2-Year Part-Time

Application Information	
Application Open:	October 2025
Programme Date:	August to June Next Year
Admission Requirements:	<ul style="list-style-type: none">• Good Bachelor's degree in Law (or equivalent legal qualification)• Non-law graduates who have substantial knowledge of and exposure to law may be considered for admission on a case-by-case basis.• Proof of English proficiency (TOEFL/IELTS) is required for all international applicants except those from English-medium institutions in Australia, Canada, Hong Kong, Ireland, New Zealand, Philippines, United Kingdom and the United States. Minimum score: IELTS 6.5, TOEFL 90.

Class Profile	
Intake Size:	30
Age Range:	22 - 57
Average Years of Working Experience:	11
Visit https://law.smu.edu.sg/llm or email smullm@smu.edu.sg for more details about the LLM programme.	

Yong Pung How
School of
Law

JD Programme Highlights

- Classes are taught exclusively with only JD students from diverse backgrounds
- Graduate with at least 3.0 GPA will be eligible to sit for Singapore Bar
- Enhance knowledge of law, critical thinking, professional judgement and presentation

Quick Facts Box	
Name of the Programme:	SMU Juris Doctor

Tel: +65 6592 1136, Email: Adm.Postgrad@SingaporeTech.edu.sg
Website: <https://www.singaporetech.edu.sg/admissions/postgraduate>

Background

Singapore Institute of Technology (SIT) is Singapore's University of Applied Learning, offering applied degree programmes targeted at growth sectors of the economy. With a mission to nurture individuals who positively impact society, SIT aims to be a leader in innovative learning by integrating learning, industry and community. Our postgraduate programmes enable students to develop specialist knowledge and skills relevant to the industry, providing the opportunity for graduates to become Chartered or Professional Engineers in their field.

Programme Highlights

The Master of Science in Civil Engineering programme supports upskilling and lifelong learning for continuous professional development of civil engineers. In line with SIT's unique applied learning pedagogy, this programme emphasises integration between theory and practice, with a focus on structural and geotechnical engineering applications. The programme has strong industrial relevance in its curriculum, developed in consultation with agencies and companies in the construction sector. Selected modules will be co-delivered by practising industry experts to train students to be deep specialists. In addition, it serves as a further learning component to the three-year Bachelor of Engineering in Civil Engineering, jointly offered by SIT and University of Glasgow.

SUTD | OUR PG ALUMNI AND STUDENT

Dr. Matthew Yeo Soon Kiat

Alumni of SUTD PhD - Engineering Product Development (April 2024)
Currently a Research Fellow at the Singapore University of Technology and Design (SUTD)

Why did you select SUTD for your postgraduate studies, and what distinguished it from other options?

SUTD provided a unique multidisciplinary learning environment during my undergraduate studies, particularly through our design projects*. The integration of architecture and robotic engineering at SUTD allowed me to deeply engage in research on robot ergonomics. This experience offered valuable insights into developing spaces that are inclusive of robotic systems. I am very fortunate to have Associate Professor Mohan Rajesh Elara, a leader in the field of robotics, as my PhD advisor and my research topic was closely related to some of his work.

Other universities would focus on either specialisation or have limited resources for the specific industry. This would not have enabled the wider access to robots or zones for deployment and testing as I had in SUTD.

*Design experiences are incorporated within and outside the SUTD curriculum - within subjects, cutting across subjects, across academic years and projects driven by students.

What opportunities or changes did you experience after completing your PhD?

I have unique opportunities and access to both the architecture and robotics industries, allowing me to apply niche insights that other graduates may not possess. In terms of robotics engineering, I am now able to provide robotic deployment knowledge in architectural zones. With my Master of Architecture experience, I am well placed to provide architectural insights on how zones can be improved for robot productivity, such as area coverage (e.g. robotic cleaning operations), or optimised waypoint navigation for the highest visual coverage (e.g. robotic security/surveillance).

He Junbo

Student of Master of Science in Technology and Design (Sustainable Product Design)

How has the MTD programme redefined your educational experience?

I completed my bachelor's degree at California State University but pursuing the Master of Science in Technology and Design (MTD) at SUTD has truly redefined my educational experience. SUTD places a strong emphasis on practical, real-world problems, focusing on enhancing students' problem-solving abilities. The university integrates multiple disciplines seamlessly, and "design" at SUTD extends beyond traditional art or industrial design to emphasise innovative design methodology. This aspect intrigues me and inspires me to want to learn more about it.

How has your learning experience at SUTD influenced the way you solve complex problems?

As a computer science graduate, my current post-grad research spans medicine, IoT, signal processing, and algorithms, which I find incredibly fascinating. The exposure to design methods and sustainability at SUTD has broadened my perspective, especially in the full life cycle development of products. The application of design thinking in engineering has equipped me with a holistic approach to tackling complex problems, ensuring that solutions are not only technically sound but also user-centric. This unique approach has enriched my academic journey and provided me with invaluable skills not only for my future career, but also in my personal life.

Singapore University of Technology and Design

SUTD is Singapore's fourth autonomous university and one of the first universities in the world to incorporate the art and science of design and technology into a holistic interdisciplinary education and research experience. SUTD students thrive in a design-steeped environment and are encouraged to think creatively and innovatively to solve real-world problems. We leverage on the power of deep tech like artificial intelligence to bring to life human-centric solutions using design and technology.
